

EXPENDING \$3,000 ON BOTTLING WORKS

NEW MACHINERY IS ON WAY
AND WILL BE IN-
STALLED

TO CHANGE NAME

From Superior Bottling Works to
Pepsi-Cola Bottling Works--
Strictly Sanitary.

Mr. George B. Townsend, manager, yesterday announced that the name of the Superior Bottling Works would be changed to the Pepsi-Cola Bottling Works and that \$3,000 would be expended in enlarging the plant and in purchasing and installing the latest improved machinery. The new machinery and supplies are on the way, and when finished the plant will have a capacity of 250 cases of Pepsi-Cola per day.

It is the intention of those in charge to make this plant one of the best and most modern in the south, and they announce they will not spare pains or money to make it so. Distilled water will be used exclusively in bottling the Pepsi-Cola, this to be obtained by heating the water in a closed vessel to 350 degrees Fahrenheit, thus killing all microbe and germs. The water will then be heated in an open vessel up to 212 degrees Fahrenheit so that all vegetable and mineral gases will be expelled. The water will then be twice filtered in order to take out any small discolored matter that might have escaped the other processes. This of course will make the water as pure as is possible.

Sanitary Machinery.
This bottling plant will install the latest hydro, heating, soaking and conveying machine, one of the most sanitary that is now being manufactured. When dirty bottles are fed to this machine, all loose dirt is removed by rinsing, then each bottle has a continuous soaking in hot caustic soda inside and outside for ten minutes. Each bottle will get 70 gallons of hot caustic soda forced inside and outside with 25 pounds of pressure. After the bottles are cleaned in this way, they receive four rinsings inside and outside with fresh water. The bottles and the cups holding them are then delivered to the bottling table absolutely sterile, since there is no chance for any impurities to remain.

The capacity of the plant's Twichell carbonator will be doubled, and the chilled distilled low pressure system will be installed. Quantities of ice will be required to chill the distilled water so that it can be carbonated with low pressure. The low pressure system will put out a more uniform and higher quality of goods and is a great saving in the breakage of bottles when being filled.

The Bottling Machine.
This plant will use a belt driven automatic machine which will put into each bottle the same amount of syrup, distilled water and gas, thus making the contents of each bottle uniform in every respect. The Pepsi-Cola syrup will be drawn out of the original barrel on the second floor into a big porcelain jar, where it will be refilled before going into the bottling machine. The syrup will not be handled at all, since it will go right into the bottles which have been conveyed from the cleansing machine, without the hands touching anything that goes inside the bottles.

A large shipment of bottles have been received which will be used in the future to bottle the drink in. They are of a neat design, being tall and slim, and will have the words, "Pepsi-Cola Bottling Works, Made From Distilled Water," blown on them.

"If the people must drink, I want them to drink right," stated Mr. Townsend yesterday. "Pepsi-Cola is the right drink, made from distilled chified water, pure cane sugar, phosphoric acid, and the flavors of fruits and flowers. Doctors say this is an honest healthy drink that can be passed out to honest people by honest methods. We will incorporate the profit sharing plan, each crown being worth 10 cents in securing prizes from a large assortment of premiums."

NEW WOODMEN CAMP

A new Woodmen of the World camp was organized at Oak Grove on Thursday night. It will be known as Oak Grove camp, and has 22 charter members.

One hundred and fifty hosiery and knit goods mills in Philadelphia produce \$15,000,000 worth of material annually.

RATHER UNIQUE

Atlanta, Ga., April 8.—Mr. and Mrs. A. T. Roberts, who live near Lawrenceville, Ga., were born in the same year, on the same day and at the same hour—7 o'clock in the morning. They were born in 1858, married in 1878, and celebrated their fifty-eighth birthday on Sunday, March 19, last month. They have lived happily together for thirty-eight years, rearing five children, four business men and one beautiful daughter.

POPULARITY CONTEST ANDERSON THEATRE

Management Will Give Two Free
Tickets to Washington, D. C.
Starts on July 15.

The management of The Anderson theatre yesterday announced that he would give two return tickets to Washington, D. C., to the two most popular young ladies in Anderson, these to be decided by votes received in connection with tickets purchased for the moving pictures. The contest will start on Monday, April 17, and will run until July 15.

R. FOSTER IS DEAD AT THE AGE OF 70

Well Known and Highly Respected
Citizen of Brushy Creek
Passes.

Brushy Creek, April 8.—Mr. R. Foster, who had been sick for some time but who was able to be up, died suddenly early Monday morning, while out on his porch instructing some laborers as to what to do for the day. Mr. Foster was one of Brushy Creek's oldest citizens, having lived, where he died, for 42 years. He was born in Rayburn, Ga., in October, 1838, and was in his 78th year when he died. Mr. Foster, when a young man, married Miss Amanda Jones, who with seven children, Mrs. C. C. Foster of Piedmont, Mr. C. E. and O. O. Foster of this place, Mrs. Luther Dagwell of Pickens, Mrs. Tim Smith of Atlanta, Mrs. Warren Wilson of Mr. Atry, Ga., and Miss Cora Foster of this place and a great number of grandchildren and great-grandchildren are left to mourn his death. Mr. Foster was of a large family, having had seventeen brothers and sisters, who except three preceded him to the grave. He, with several of his brothers served for years in the Civil War, then went home and moved to South Carolina, where he by hard work and good management, accumulated quite a large amount of property. He was a Christian gentleman and was highly respected by all who knew him. He was carried to Bethesda Methodist church Thursday afternoon where he had been a member for years and there the Rev. Abney, his pastor, conducted the funeral exercises after which his body was laid to rest in the cemetery at that place. A large crowd of relatives and friends attended. The following gentlemen acted as pallbearers: W. W. Fleming, J. B. King, H. P. Jones, M. M. Morris, Mack McAllister and W. A. Finley.

Charlie, the little son of Mr. and Mrs. J. S. Carrett died last night.

The 2nd Springs school will play "The 2nd Springs Convention" Saturday night, April 15th, at eight o'clock. The admission will be 20c.

The Airy Springs school and a large portion of the patrons, went to Anderson to the fields day exercises today.

Mrs. R. Smith is sick at present.

Mr. C. C. Cely is the proud father of another fine boy.

Mr. M. P. Fleming, who suffered a fractured shoulder last October, is able to be at work again.

REVIVAL AT SECOND BAPTIST

Is Being Largely Attended—Special Services Today.

The revival services being held every evening at the Second Baptist church are being largely attended, and excellent results are being obtained. The meeting is being conducted by the Rev. J. S. Cobb and he is being assisted by the pastor, the Rev. J. A. Anderson. A service is held every evening at 7:30 o'clock, and a cordial invitation is extended to the people to attend them.

Special services will be held at this church today. The Rev. J. S. Cobb will preach three times, first at 11:30 a. m., second at 3:30 p. m., when the service will be for women only, at 7:30 p. m.

The Rev. Mr. Cobb is a splendid preacher and great crowds are gathering each evening to hear him. The services will be continued through next week.

Mr. Cobb is pastor of the Baptist church at Gluck mill and Shiloh church in this county, and also of the Baptist church at Duncan mill in Greenville.

Emergency Inspector.
(Special to The Intelligencer.)

Columbia, April 8.—D. L. Smith, for many years a member of the general assembly from Colleton county, has been appointed as an emergency inspector by the state department of agriculture. Mr. Smith before accepting the appointment retired from the rice for railroad commissioner.

Henry Scheuffler, who introduced a silky flypaper into the United States now runs a restaurant in Portland, Ore.

1ST ADVERTISEMENT IS CARRIED TODAY

A. W. KAY HAS BEEN IN BUSINESS IN ANDERSON 21 YEARS

WILL MOVE STOCK

Is Now Conducting Removal Sale
and Advertises for the First
Time.

Mr. A. W. Kay, who was the senior member of the old firm of Kay & Baker, one of the largest mercantile concerns in the city more than a quarter of a century ago, or to be exact, who did a tremendous business here from 1889 to 1894, occupying the building at present occupied by Dr. Gelsberg, and who after the dissolution of the old firm went into business on his own account in the building that he now occupies, and which has been leased to the Woolworth syndicate, announces in this morning's Intelligencer a removal sale; and, incidentally, this is the first newspaper advertisement that Mr. Kay has run in all the twenty-one years that he has been in business.

Mr. S. C. Baker, the junior member of the firm, has for the last ten years or more been identified with Robert Moore & Co., of Atlanta, Ga., in the cotton business, and is still with that firm.

In the mercantile arena Mr. Kay enjoys an unique position, and there is not, beyond a doubt, another man in all the country round about, who could get away with the business that he does without the aid of printers' ink. "I have been engaged in the general merchandise business in this stand for twenty-one years," said Mr. Kay Saturday afternoon, "and the announcement that you will carry Sunday morning is the first newspaper announcement that I have made for my store in all those years."

Mr. Kay says that he has several locations in view, but that as yet he is undecided as to where he will be located after June 1st.

NEWS OF WEEK AT DUE WEST COLLEGE

(Special to The Intelligencer.)
Due West, April 8.—Dr. R. L. Robinson attended the meeting of the presidents of the colleges in Columbia last week.

Misses Kate Lindsay and Ella Wyke spent last week-end at their respective homes in Chester.

Miss Lois Pettigrew visited her parents at Starr last week.

Miss Jean Harris of Anderson was a visitor in the college last week-end. She was the guest of Miss Mary Kennedy.

Miss Margaret Hard spent a few days last week with Mrs. J. M. Garrison in Anderson.

The students were very pleasantly surprised last Friday when Dr. Robinson announced that there would be no school Saturday as it was the first day of April.

The Theory of Prohibition.

Prohibition is not really the mitigation of a policy. It is the repeal of laws which create a "right" not naturally existent and inconsistent with the welfare of the state.

Licenses frees the licensee from natural prohibition on condition of paying certain fees.

Licenses accentuates the distinction between citizens who remain under natural prohibition law and citizens who for specific reasons are released from its supremacy.

GRANDMA USED SAGE TEA TO DARKEN HAIR

She Mixed Sulphur With it to
Restore Color, Gloss,
Youthfulness.

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea and Sulphur recipe at home, though, is troublesome. An easier way is to get a 50-cent bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old time recipe improved by the addition of other ingredients.

While wispy, gray, faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark, glossy, soft and luxuriant.

This preparation is a delightful toilet requisite and is not intended for the cure, mitigation or prevention of disease.

REMOVAL SALE

MY ENTIRE STOCK NOW ON SALE

AT COST

I will have to vacate my present store room June 1st and in order to reduce stock, preparatory to moving, I offer my entire stock, consisting of a choice line of Dry Goods, Shoes, Notions, etc., at cost. I have been in business here—in this store—for 21 years and the public and my customers know that I have always sold only first class merchandise. If you would save money take advantage of this sale.

MANY ENROLL IN THE N. C. CORN, PIG, POULTRY CLUBS

Raleigh, N. C., April 8.—Latest figures from the farm extension service show that up to April 1 there had enrolled in the corn, pig and poultry clubs, 5,133 boys and girls, divided as follows: Corn clubs, 9,609; pig clubs, 1,012; poultry clubs, 1,562.

Stokes county leads in corn club entries, 149 boys having entered. Mecklenburg has 45. In pig clubs, Durham leads with 65. Mecklenburg has 43. Durham also leads in poultry clubs. Mecklenburg has 80.

Nitro-Cultures Orders.
Columbia, April 8.—The state department of agriculture is receiving many orders for nitro-cultures. The indications are that there will be a heavy acreage of inoculated cow peas. The department is furnishing the cultures at 40 cents per acre.

GIRLS! T-ICKEN AND BEAUTIFY YOUR HAIR AND STOP DANDRUFF

Try this! Your hair gets wavy,
glossy and abundant at
once.

To be possessed of a head of heavy, beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff is merely a matter of using a little Danderline.

It is easy and inexpensive to have nice, soft hair and lots of it. Just get a 25-cent bottle of Knowlton's Danderline now—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance, freshness, lustrousness and an incomparable gloss and lustre, and try as you will you can not find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—yes—but really new hair—sprouting out all over your scalp—Danderline is, we believe, the only sure hair grower, destroyer of dandruff and cure for itchy scalp and it never fails to stop falling hair at once.

If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderline and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this.

WHEN WILL I SAVE?

Spring has come,
the years is 1-4 gone—
and yet I have not joined
the throng who put
aside something each
pay day.

Resolve; That I
will begin the first pay
day in April.

What Will I Save—
I'll put aside not less
than 25 per cent. of my
income.

How Will I Save—
I'll put my money each
pay day in the Savings

Electrical News

Published By Southern Public Utilities Company

VOL. II. ANDERSON, S. C., SUNDAY, APRIL 9, 1916. NUMBER 12.

MARCONI GRAMS

"Do it Electrically" has a greater significance in Anderson today than ever before.

The best always stands out with clearness and shows how good it is. This is true of Mazda lamps. There is no better medium of illumination. The best light at the least cost.

Many electrical devices, owing to the fact that they can be operated at considerable less cost than when they were bought few years ago, are brought into daily use in numbers of homes.

What is more strengthening or refreshing than a fragrant, steaming cup of delicious, hot coffee? And what is more satisfactory than making your own coffee, on your own table in a clean, shiny Percolator? No musing—no hot stove. Just the joy of brewing a delightful, appetizing beverage with electricity.

There seems to be a growing demand for Utility Electric Table Stoves, and it is not at all surprising. The first cost is only \$5.50 and to operate one costs no more than to operate an electric iron. It may be used on the dining table to do any kind of cooking—frying, boiling, toasting, etc. It is beautifully finished, practical in every way.

ELECTRIC COOKING

Few Utensils For Every Family Advisable.

For large families, where the average domestic help is employed and a large amount of cooking done, electric cooking will be found more expensive, and in most cases, not advisable.

In small families, where no help is employed and where nice equipment is desired, electric cooking will be found many times more convenient, more safe in operation as well as reasonable in cost.

In every family, a few utensils for early breakfast, emergency and special uses—and for cheering up cold meals with a warm dish or two—is highly advisable from every standpoint, including that of economy alone.

Chafing Dishes

With An Alcohol Lamp

you must fill the lamp, adjust the wick, strike a match, and be very careful not to spill alcohol on the table top.

With Electricity

you insert the plug and turn the switch.

When this is done you can devote all your attention to the recipe.

At a very small expense we can convert your old alcohol chafing dish into an electric. Phone us about this.

Electric Broiling

is entirely different

There is no heat except where it is needed

The Electric Broiler enables you to do it yourself
